

Strong Passwords

student name: _____

Do you think other computer users (siblings, parents, teachers) know how to create strong passwords?

Although students cannot change the passwords provided by Humble ISD, do you have other passwords that you may need to change now that you have learned about strong vs. weak passwords?

How could you personally increase public awareness of password protocol?

Explain strong passwords to one adult (parent, teacher, etc) and have them sign below acknowledging that you have shared your strong password expertise.

Signature – The above named student explained how to make a strong password to me on this **date**
